the first edition of a symphony of silence an enlightened vision was inspired by the desire to share with humanity through multiple voices the ineffable beauty we experience in our lives when the veil of ignorance is pulled back and the wonder of our essential nature is revealed the voices emerging from these pages add vitality and validity to our shared experience of

the silence of the transcendent it is not something beyond our reach but a reality that has always been with us quietly awaiting an opportunity to unfold in this second edition of a symphony of silence several new voices are added to the chorus of the first edition a catholic priest tells us of using tm as part of his inspired vision of the power of love to transform the lives of abused and destitute children from the streets of south america the founding director of an orphanage and school in uganda who likewise brings tm to children in need describes to us his compassionate resolve to eradicate suffering within his community a poet expresses for us in verse the joy of a seeker reaching for the light a scientist and his colleagues show us the power of tm to reduce stress and alleviate ptsd in the field of law enforcement an actor director producer and entrepreneur explores with us his innovative projects for inner city students through edutainment women who for decades dedicated themselves to introducing the tm program to their multicultural community share with us delightful and very personal stories a pioneering social activist brings us into the conversation he had with maharishi in 1968 at a conference in squaw valley california he talked candidly with maharishi about the need to introduce tm as a tool to bring inner freedom to the inner cities helping to fulfill the quest for true civil rights the voices in a symphony of silence create a glimpse into the vast impact that maharishi has on many lives throughout the world

although higher mathematics is beautiful natural and interconnected to the uninitiated it can feel like an arbitrary mass of disconnected technical definitions symbols theorems and methods an intellectual gulf needs to be crossed before a true deep appreciation of mathematics can develop this book bridges this mathematical gap it focuses on the process of discovery as much as the content leading the reader to a clear intuitive understanding of how and why mathematics exists in the way it does the narrative does not evolve along traditional subject lines each topic develops from its simplest intuitive starting point complexity develops naturally via questions and extensions throughout the book includes levels of explanation discussion and passion rarely seen in traditional textbooks the choice of material is similarly rich ranging from number theory and the nature of mathematical thought to quantum mechanics and the history of mathematics it rounds off with a selection of thought provoking and stimulating exercises for the reader

the question why a transcendental anthropology entails already having in someway attained the answer to the question and yet it also calls for a justification not only of the answer but of the question itself in this short work the spanish philosopher leonardo polo 1926 2013 presents his proposal of a transcendental anthropology and seeks to provide historical and philosophical reasons that make such a proposal timely and fitting for the present historical situation of philosophy polo s proposal makes use of the philosophical method that he calls the abandonment of the mental limit when applied to the study of the human person the result is a transcendental anthropology that expands the classical doctrine of the transcendentals to include anthropological transcendentals and is capable of critically engaging modern and contemporary philosophy thus correcting its errors and incorporating its deepest insights into itself
