understanding planets their effects each planet emanates certain energy while moving through the zodiac circle some planets move faster like sun moon mercury mars and venus these are called inner planets and they affect us in a more personal and rapid manner influencing our daily life impulses and mood all planets in solar system are revolving around sun in a predefined pattern that's how we know when to wake up and when to go to bed planets however govern a lot more than just occurrence of day and night or eclipses and tides planets have a direct impact on us despite being several light years away while the position of planets does not dictate our everyday actions it does have a profound and close influence on our life and destiny understanding planets their effects much like nobody forces

moon to orbit earth humans are also under no force to act in a certain way but everything in the universe is correlated and works in sync so naturally the movement of planets affects our actions as a result much like our actions affect the environment human body is in fact made of elements present in the universe the structure of our brain is very much similar to the structure of universe everything that happens to the universe happens to us our own magnetic field aligns with the earth's magnetic field each object in the universe be it humans earth planets and stars in our galaxy move in a precise symphony so we have to connect ourselves to these energy sources to receive the vibrations and function better each planet emanates certain energy while moving through the zodiac circle some planets move faster like sun moon mercury mars and venus these are called inner planets and they affect us in a more personal and rapid manner influencing our daily life impulses and mood the outer planets move slowly in the sky some even take as much as 2 5 years to change a sign these include jupiter saturn rahu and ketu and these planets have a more profound and long lasting impact on us unlike say moon astrological significance of planets every planet rules a zodiac sign except rahu and ketu which are in fact not actual planets but two reference points in the sky rahu and ketu are the points where the paths of the sun and moon intersect with each other rahu is the north lunar node the head of the dragon as per mythology and ketu is the south lunar node the qualities of the zodiac signs somewhat align with the characteristics of the planets for instance impulsive and active aries is ruled by fiery mars dreamy pisces is ruled by spiritual jupiter emotional cancer is ruled by motherly moon while confident leo is ruled by masculine sun

dear reader the whole process of spiritual practice during the initial steps consists of neutralising karma and gaining poise the inequalities of past karma manifest as the inequalities of the mentality personality and behaviour of man behaviour is only a response of the person to environment in terms of his own habit or past karma this response also forms the basis of his future karma every step is subject to correction until poise is gained poise in food expression and behaviour is the path of yoga according to the bhagavad gita every planet in every sign in house represents our past life karma to understand that first we need to understand the planets in astrology this book is all about describing planets in astrology to give indepth knowledge and wisdom to the person to experience and learn fundamentals of astrology regards saket shah

in vedic astrology the associations the planets form or variations of how they are placed in a horoscope are referred to as yogas yoga literally means union or that which adds joins or yokes astrologically yoga refers to planetary combinations or configurations and their special

results which affect the life of an individual in traditional Indian ephemeris known as panchang yoga is also a particular division of time arrived at by adding longitudes of the sun and the moon at birth these are 27 in number starting from viskumbha to vaidhriti each governed by a different constellation or lunar mansion which are also 27 in number in spiritual field the word yoga means training taming and stimulating the body and mind with universal soul in ayurveda the yoga of two or more medicines gives specific results yogas are one of the unique features of vedic astrology there are hundreds of yogas mentioned in various classical texts most of the yogas are formed of more than one planet but all combinations do not mean a yoga formation the idea behind these yogas is to equate the planets strength in a chart and how when they will produce their effects in a native's life

in the most basic terms planetary conjunction occurs when two or more planets occupy the same house but what happens when planets are conjunct in a house they define your life in a nutshell a conjunction can be benefic or malefic depending upon several factors such as the nature of the planets involved their relationship with each other and the house sign they are placed in the strength of the planet is also taken into account like whether the planet is combust retrograde or direct there can be as many as 5 or 6 planets in the same house but such is a rare occurrence these are in fact the most difficult horoscopes to interpret care must be taken in determining how the planets affect each other there could be a yoga or a planetary combination forming due to the conjunction but if a malefic planet is operational in the same house the yoga may not fructify for the native on the other hand when multiple weak or malefic planets get together in a house presence of a benefic could balance the situation nevertheless its power would be low due to malefic influence so the horoscope can only be considered average conjunction of multiple planets in one house indicates the focus area of your life the house where most of the planets are placed nevertheless there could be some misbalance in the personality of the native due to the strong pull of a single house the lord of house where conjunction of planets takes place is also under the spotlight if it is positioned well it casts a benefic influence upon the native it tends to make other planets strong too however if it is weakly posited or under malefic influence it may only deem negative results and may worsen the situation

in vedic astrology harmonious and inharmonious aspects among the planets depend upon their natural significations and their basic characters planets of contrary characteristics usually display inharmony when in aspect however the lordships of planets have a great say in moulding the planets considerably when in aspect this change in nature and characteristics is particularly noticeable during their dasas and bhuktis thus we see that in

vedic astrology the results of aspects of planets depend upon their natural characteristics and lordships in western astrology it is the angle between the planets that decides harmonious or inharmonious aspects the planets at 90 or 120 apart are supposed to be in harmony or create a harmonious aspect tend to enhance each other s good significations modify and retard the bad significations if the angle is 90 or 180 or placed in 6th 8th to each other then they are said to be in inharmonious aspects they tend to irritate and block each other s significations they give bad results for the houses they are posited in and for the houses ruled by them we propose to discuss here the harmonious and inharmonious aspects between the sets of two planets in a general sense these aspects are pliable for various horoscopes according to lordships and natural characteristics of planets involved and other aspects to these planets
